

What's in store? The School Store, that is.

EVERYTHING you'll need to get your school year started off right! Starting with all of the school supplies required by your teachers at very reasonable prices.

Throughout the school year, watch the Foxhound Focus for news and promotional information from the store. This will include supplies in stock for class specific projects and SJA Spirit Wear.

In order to better serve our customers, the School Store will be offering **Store Credits** to SJA students. Here is how it will work:

Parents can opt to put \$10 per child on credit with the School Store. If your child finds that they need an item, they may purchase it and the store will keep a running tally of dollars spent. As the amount dwindles, you will be notified and then can choose to put more on credit throughout the year in \$5 increments. Money must be used at the store by the end of the school year. **No balances will forward to the following year.**
